BASS MODULE

Read Me

Introduction

Welcome and thank you for purchasing MaxSynths' Bass Module!

Bass Module is a collection of bass sounds packed together into a single VST instrument, suitable for a wide range of music styles, from classic electronic, to dance music, to rock, metal and more!

Every single patch has been programmed/sampled and crafted with care. The module includes 64 original bass sounds divided in 100+ Mb of sample data (we squeezed everything like a lemon to make the plugin as light as possible for the system RAM).

Bass Module includes both acoustic and synthesized bass sounds, ready to access from the GUI, no frills or other useless features: pure plug and play!

Bass Module include also a chorus FX and an internal dynamic processor set to process the bass frequencies and make the sound more present, compact and mix friendly.

I really hope Bass Module could be of inspiration for your music and provide countless hours of fun!

Massimo Bosco

Features

- 64 original patches
- Acoustic and synthesized bass sounds
- +100MB of sample data
- Custom chorus FX
- Internal dynamic processor
- Ultra light on CPU
- Suitable for a wide range of music styles

System Requirements

MINIMUM SYSTEM REQUIRIMENTS: PC running WinXP, Vista or W7, CPU 1Ghz with SSE2 support, 512MB RAM, soundcard with ASIO drivers, compatible ASIO host.

Installation

1. Close your host (Cubase, Sonar, etc.).

2. Copy the content of the the zip archive into your VST plugins folder (for example: *"C:\Program Files\VSTPlugins"*). Be sure to copy both the dll file and the "BassModule" folder.

3. Run your host and do a plugin rescan (refer to your DAW manual).

End User License Agreement

License Agreement for MaxSynths Bass Module.

PLEASE READ THIS DOCUMENT BEFORE INSTALLING THE SOFTWARE.

Bass Module VST Plugin is copyrighted © 2015 by Massimo Bosco (the "Author"). All rights are reserved all over the world.

This End User License Agreement is a legal agreement between you (the "User") and the Author. Using this VST plugin (the "Software") you agree to the terms and conditions of this license agreement.

1) LICENSE (Terms and Conditions)

The Author grants you a nonexclusive license to install and use the software on the following terms:

a) This software can be used for any private, public, or commercial project or use without limitations but in full respect of the terms of this agreement.

b) To prevent illegal distribution of the software every single copy of the software is watermarked with a code that corresponds to the owner of the copy.

c) In respect of the term above (**1-b**) the user may not distribute, lend, rent or sell his personal copy of the software for any reason. The user may not distribute his personal copy of the software in any way.

d) According with term **1-b**, the user is aware that his copy of the software is specially marked in such a way that if the software is illegally distributed or illegally duplicated, he can be identified and according with International Copyright Laws the Author could decide to proceed against the user.

e) Every single copy of the software can be installed only on two personal computers.

f) The installation of the software on a computer running as a server is not allowed.

g) The user may not reverse engineer or decompile the software.

2) LICENSE TRANSFER

a) License transfer is allowed prior direct contact with the Author.

b) The license owner must contact us providing detailed informations about the license transfer (full name, e-mail address, the name of the product and the new license owner name and e-mail address). The new license owner will be contacted by us.

c) Once the license has been transfered to the new user the previous license owner loses any right to use his copy of the software.

d) According with point 2-c the user must uninstall the software from his personal

computers(s) and delete any file previously delivered to him after the purchasing of the software.

3) DISCLAIMER AND WARRANTY

The software is provided "as is" without warranty of any kind. The author is not responsible for any damage of any kind resulting from the correct or incorrect use of the software.

4) COPYRIGHT
